

## PRESS RELEASE:

### Flowers aren't just for the garden

Inspired by nature, beautiful bronze basins, handcrafted by highly skilled artisans are available from [www.beautifultoilets.com](http://www.beautifultoilets.com)

Made to order, these sculptured basins are available in a variety of finishes including silicon bronze light, silicon bronze brushed, white bronze light and white bronze brushed.

Prices for the Flora Bronze Basin, with its intricate petal detail start from £3,110, and the Pond Bronze Basin with its fluid lines start from £4,400.

Cast using traditional methods, exceptional care is taken to create each basin using the finest materials and processes. Using a natural material such as bronze ensures each basin evolves like the living organisms they reflect, changing over time.

These two basins are the latest additions to The Remarkable Toilet Company's growing range of extraordinary bathroom and WC wares. Jaded by the somewhat uninspiring bathroom and WC options readily available, The Remarkable Toilet Company's mission is to 'make the smallest room, look the

grandest', through supplying a range of remarkable traditional and decorative toilets and associated products.
