

## LAUNCH RELEASE:

**The Remarkable Toilet Company launches a timeless Victorian classic toilet**

Unveiling [The Floral](#) Patterned Victorian Toilet, a faithful reproduction of a Victorian decorative porcelain toilet pan from the Remarkable Toilet Company (TRTC).

Carefully crafted to replicate the look of its illustrious forbears, while conforming to modern plumbing standards, The Floral offers an intricate Victorian design, coupled with a sympathetic, yet bold, colour pallet.

Priced at £550, The Floral, available from [www.beautifultoilets.com](http://www.beautifultoilets.com) features colourful Convolvulus Arvensis festooning the exterior and interior of the toilet pan, in jade, cerise, umber and blue hues. Outlined in deep claret the wild flowers sit perfectly against the pans ivory background, to produce a look that is second to none.

Commenting on the launch of The Floral, TRTC Director Kelly Allnutt said: “We are incredibly excited about The Floral, which is a fabulous addition to the traditional sanitaryware market. Products in this particular market have previously been limited to pale, insipid tones, however with the launch of the Floral this is set to change.”

Inspired by the quality craftsmanship of a bygone age, TRTC has pioneered an intensive development process to provide an affordable, quality toilet pan, which meets the rigours of modern day cleaning and most importantly is perfect for creating a stylish bathroom or WC.

The Floral is the latest addition to The Remarkable Toilet Company's growing range of extraordinary bathroom and WC wares. Jaded by the uninspiring bathroom and WC options readily available, the company's mission is to 'make the smallest room, look the grandest', through supplying a range of remarkable traditional and decorative toilets and associated products.
